Quality Improvement Review

LSF/NW-Hope House – October 2-3, 2019

Lead Reviewer: Ashley Davies

Rating Definitions

Ratings were assigned to each indicator by the review team using the following definitions:

Satisfactory Compliance	No exceptions to the requirements of the indicator; limited, unintentional, and/or non-systemic exceptions that do not result in reduced or substandard service delivery; or exceptions with corrective action already applied and demonstrated.
Limited Compliance	Exceptions to the requirements of the indicator that result in the interruption of service delivery, and typically require oversight by management to address the issues systemically.
Failed Compliance	The absence of a component(s) essential to the requirements of the indicator that typically requires immediate follow-up and response to remediate the issue and ensure service delivery.
Not Applicable	Does not apply.

Quality Improvement Review

LSF/NW-Hope House – October 2-3, 2019

Lead Reviewer: Ashley Davies

Strengths and Innovative Approaches

The shelter's community food program continues to grow. They are able to provide food and other daily needs for about 500 households each month. They just enrolled in the Good 360 Program with Wal-Mart which is a donation program that they will use for the community.

The shelter had their 11th annual hurricane drill. The HOPE House teams, Red (Preparation), Green (Evacuation), and Blue (Recovery) did an amazing job. The shelter youth also participate in the weeklong chain of events and learned the importance of being ready for a disaster. They focused a lot this year on the sheltering of youth from another CINS/FINS shelter. They had the opportunity last year to host youth and staff from Anchorage in Panama City and learned a lot from that experience.

The shelter has had many different celebrations with the youth including Thanksgiving Day Feast, Christmas and New Year's celebrations, Super Bowl party, 4th of July fireworks, Halloween/Harvest party, National Ice Cream Day, and a number of birthday celebrations.

The youth have learned to do comparison shopping, baking, cooking, gardening, organization, and many other things. Comparison shopping covers a range of goods from groceries to clothing to setting up a new apartment.

The youth have visited a fire station and museums. The youth have taken cards and gifts to two nursing homes and visited with the patients there. The youth made and distributed homeless care packages. The youth also sent appreciation cards to members of the military and Golden Star families.

The shelter has had several speakers this year talking to the youth about a variety of subjects including local firefighters, careers such as plumbing, welding, computer tech, auto repair, and weekly Bible study. The youth also toured a fire station.

The youth have learned to make putty, stress balls, crochet, painting, and a variety of craft activities. They have done some yard work, cleaning the vans, creative writing, and made strawberry jam.

The shelter has had two youth with very limited English, and the counseling intern has been that invaluable resource who translates and ensures understanding, not only of the language, but also of the culture.

Standard 1: Management Accountability

Overview

Lutheran Services Florida NW Hope House is managed by a regional director who oversees a quality services manager and a clinical director. At the time of the review there were three vacant youth care specialist (YCS) positions and three vacant YCS temp positions. The Registered Nurse (RN) position was also vacant. The Administrative Assistant position has been restored back to the budget as a full-time position and a YCS was in the process of transitioning back into this position full-time.

The shelter recently had two older vans donated to the program from Okaloosa County. One of the vans has still has the cage inside so this van will be used for maintenance and running errands. The other van will be used to transport youth.

All indicators in standard one were rated satisfactory with exceptions noted in indicators 1.04 Training Requirements and 1.05 Analyzing and Reporting Information. The exceptions noted in 1.04 were in training files reviewed for first year employees that revealed some required trainings completed outside the 120-day requirement. The exceptions noted in 1.05 were due to improvements that are implemented and monitored through the data collection process not being consistently documented in the meeting minutes each month. A deficiency was noted in indicator 1.03 Incident Reporting due to an incident being reported outside the two-hour time frame; however, this deficiency did not result in an exception. All other indicators standard one were rated satisfactory with no deficiencies.

Standard 2: Intervention and Case Management

Overview

Lutheran Services Florida NW Hope House provides residential and non-residential counseling and case management services over four counties, Walton, Escambia, Santa Rosa, and Okaloosa, across Circuit 1.

The clinical director, who is a Licensed Mental Health Counselor (LMHC), oversees both programs. The residential counseling program consists of one master's level counselor. The non-residential counseling program also consists of one master's level counselor. The non-residential program also offers Intensive Case Management (ICM) services. ICM services are provided by an ICM coordinator. The ICM coordinator is a master's level staff.

Quality Improvement Review

LSF/NW-Hope House – October 2-3, 2019

Lead Reviewer: Ashley Davies

This location does not offer Stop Now and Plan (SNAP) services. SNAP services for this circuit are provided at a sister shelter operated by the agency in the same circuit. The clinical director oversees ICM services. The program has provided domestic violence, probation respite, and ICM services this review period. At the time of the review the program had not provided any staff secure, domestic minor sex trafficking, or Family and Youth Respite Aftercare (FYRAC) services since the last on-site review. The agency is currently maintaining paper files.

All indicators in standard two were rated satisfactory with the only exception noted in indicator 2.03 Case/Service Plan. The exception in 2.03 was due to none of the residential files reviewed showing completion dates on the Case Plans and three residential files did not have parent signatures on the Case Plan and did not have any documentation of attempts/discussion of Case Plan with the parent to cover the missing parent signature. Indicator 2.10 Stop Now and Plan was rated as “not applicable” as those services are not offered at this location. All other indicators in standard two were rated satisfactory with no deficiencies.

Standard 3: Shelter Care

Overview

Lutheran Services Florida NW Hope House residential program is lead by a quality services manager and a youth care specialist (YCS) III. The shelter runs three shifts. The YCS III oversees each shift. The first shift has two YCS I staff and two vacant YCS I positions. The second shift has three YCS I staff and one vacant YCS I and YCS II positions. The third shift has a YCS I and YCS II staff and has two vacant YCS I positions.

The camera system was recently upgraded and provides a much clearer resolution. New cabinets and a new sink were installed in the laundry room.

The youth shelter is a residential home that has been converted into a shelter. There are three bedrooms upstairs, one-bedroom sleeps four youth and the other two bedrooms sleep two youth each. The one bedroom that sleeps four youth is primarily used for the boys’ room and the other two bedrooms are primarily used for the girls.

There are eight beds licensed for CINS/FINS services. At the time of the review there were five CINS/FINS youth in the shelter.

All indicators in standard three were rated satisfactory with exceptions noted in indicators 3.01 Shelter Environment and 3.04 Logbooks. Exceptions noted in 3.01 were due to chemicals being inventoried on a monthly basis instead of weekly. Exceptions noted in 3.04 were due to the program director not documenting weekly reviews of the

logbook. All other indicators in standard three were rated satisfactory with no deficiencies.

Standard 4: Mental Health/Health Services

Overview

The residential counseling services in the shelter are overseen by the clinical director who is a Licensed Mental Health Counselor (LMHC). Services are provided by one master's level counselor.

All youth are screened for suicide at intake using the six approved questions on the CINS Intake Assessment form and the Suicide Risk Evaluation (SRE). If youth receive a positive screening they are placed on sight and sound supervision until seen and assessed by a qualified mental health professional. All staff receive training on suicide prevention.

Health services are overseen by a part-time registered nurse (RN). At the time of the review the RN position was vacant. The previous RN resigned August 31, 2019. A new RN was hired but resigned during the first twenty-one hours of training. The agency has the position advertised again and the shelter was in the process of trying to hire another RN for the position.

At the time of the review trained YCS were distributing medications and the YCS III was overseeing the process. All newly hired staff are trained on the medication distribution process and the Pyxis Med-Station 4000 Medication Cabinet. Refresher training is provided for as needed. All medications in the facility are stored in the Pyxis Med-Station 4000 Medication Cabinet. YCS complete shift-to-shift inventories of all controlled medications and maintain perpetual inventories of all other medications.

All indicators in standard four were rated satisfactory with the only exception noted in indicator 4.03 Medication. The exception noted in 4.03 was due to the shelter not currently having a RN. All other indicators in standard four were rated satisfactory with no deficiencies.

						signature clearly documented and dated. All five residential files and three of the non-residential files had the supervisor signature located on the Case Plan. Two of the non-residential files had missing supervisor signatures on the Case Plan but thorough case notes showed that the files and the Case Plans had been reviewed by the supervisor. Four residential files did not have parent signatures on the Case Plan. Of the four files with missing parent signatures, three of the files also did not have documentation of attempts/discussion of Case Plan with the parent to cover the missing parent signature. One non-residential case did not have a parent signature on the case plan but did have sufficient documentation of attempts. None of the residential files were eligible for case review either because the case was closed before the thirty-day mark or the file is not yet due for a case review. Of the eligible non-residential files all have thirty-day Case Plan reviews and updates.
