CONCLUSION

LSF NW – Currie House has met the requirements for the CINS/FINS contract as a result of full compliance with eleven applicable indicators of the Administrative and Fiscal Contract Monitoring Tool. Two of the thirteen indicators were not applicable because: 1) the provider does not have any outstanding corrective action item(s) cited by an external funding source, and 2) does not have any current inventory purchased with DJJ/FN Funds. Consequently, **the overall compliance rate for this contract monitoring visit is 100%**. There are no corrective actions cited and no recommendation is made as a result of the contract monitoring visit. Overall, the provider is performing satisfactorily in meeting the fiscal and administrative terms of its contract. In addition, the majority of indicators reviewed were carried out in a manner which meets the standard as described in the report findings.

SUMMARY OF RECOMMENDATIONS

Recommendation

There were no recommendations as a result of this review.

If required, the provider must submit a corrective action plan to address corrective actions cited in the corresponding section of this report. The provider's Corrective Action Plan should address the issues, corrective actions item cited, time frames and staff responsible. Responses to items cited for corrective actions are due to the Florida Network and the Florida Network Contract Manager within fourteen (14) working days of receipt of this report (See Florida Network Site for the Service Provider Corrective Action Form). The Florida Network Contract Manager will then review the response to the corrective action(s) to determine if the response adequately addresses the problem identified in the report within three (3) days. Upon approval the provider will then implement the approved measure to address the item(s) cited in the report. If the corrective action is successful in resolving the items cited in the report the contract monitor will notify the Provider in writing that the desired resolution has been achieved. Comments

Due to COVID-19, this review was conducted **on-site and virtually**.

Overview

Monitoring Purpose:

The purpose of this monitoring is to provide an annual quality improvement program review. This is to verify the agency adheres to all current CINS/FINS standards and contract compliance requirements for residential and non-residential services.

Strengths and Innovative Approaches

Due to COVID-19, the program has had to change the way some services are offered. Non-residential services were initially limited to phone and virtual sessions but quickly returned to in-person, socially distanced sessions.

The shelter didn't allow family visits or outings for several months. All visitations that were allowed, were outdoors. In their attempt to comply with COVID protocols, they limited their bed number to eight. For much of that time, they were fortunate to have three or four clients, which directly impacted their ability to meet their deliverables.

With the Care Act funds, from their Basic Center grant, they were able to purchase laptops, so counselors could work from home; installed a security device on their exterior doors, which allows them to screen visitors prior to them entering the building; purchased new wipeable chairs in the lobby; installed air purifiers and hand sanitizers throughout the building; put a plexiglass shield surrounding the receptionist's desk; and transformed an extra storage room into a large counseling room, to accommodate large families.

While most of their Outreach efforts are now provided via virtual platforms, the Outreach Coordinator (OC) has established a new partnership with Moreno Court, which is a low-income rental housing complex, available through the Area Housing Commission. Every Tuesday, the OC shares the donated food they receive from Publix and Walmart, with over 40 families who live in that community. The OC also provides agency information to each family.

The Life Skills Coach developed a week-long Common-Sense Camp, which ended with a special outing to Wonderworks, educational hands-on science exhibits that "challenges the mind and sparks the imagination."

The program has a couple of new activity highlights with one being a health and fitness group conducted every Wednesday. This group is geared towards teaching the youth the importance of nutrition and physical activity. Another activity highlight involves the program participating in the Children's Home Society Street Outreach team's weekly group to help the youth in the shelter develop a personal plan to achieve their goals, build upon their interest to pursue potential careers, developing interviewing and employment skills, and much more.

Narrative Summary

Lutheran Services Northwest (LSF-NW) is contracted by the Florida Network of Youth and Family Services to provide CINS/FINS services in the Northwest region of the Florida Panhandle. The program provides residential and non-residential counseling and case management services over two counties, Escambia and Santa Rosa, across Circuit 1. The youth shelter operates 24 hours a day, 365 days a year, and is licensed for up to twelve CINS/FINS shelter beds. LSF-NW is managed by a Regional Director who oversees a Quality Services Manager and a Clinical Director. The agency as a whole provides a broad range of service offerings to those youth and families in need through Outreach efforts in their immediate service region. The agency's primary focus is providing residential and non-residential CINS/FINS services to youth and families in short-term crisis situations.

Standard 1: This standard has a total of seven indicators regarding management accountability. All seven indicators were rated satisfactory. There were exceptions noted in indicators 1.01 Background Screening, 1.03 Incident Reporting, 1.04 Training Requirements, and 1.05 Analyzing and Reporting Information. The exception noted in 1.01 was due to all suitability assessments reviewed being completed after the employee was hired and containing no results to determine if the employee was suitable for the position they were hired for. The exception noted in 1.03 was due to one incident reported to the CCC outside of the two-hour time frame. The exception noted in 1.04 was due to one first-year staff training file reviewed missing some of the required trainings and hours. The exception noted in 1.05 was due to minimal documentation to address weaknesses that were identified.

Standard 2: This standard has a total of ten indicators that relate to intervention and case management. All ten indicators were rated satisfactory with exceptions noted in 2.01 Screening and Intake and 2.09 Special Populations. The exception noted in 2.01 was due to one parent not present at intake and there was no documentation the parent ever received the required forms and information. The exception noted in 2.09 was due to one Domestic Violence youth who was in the program longer than 21 days and was not transitioned to a CINS or Probation Respite bed.

Standard 3: This standard has a total of seven indicators regarding shelter care. All seven indicators were rated satisfactory. There were exceptions noted in 3.01 Shelter Environment and 3.07 Video Surveillance. The exception noted in 3.01 was due to chemical inventories being completed monthly rather than weekly. The exception noted in 3.07 was due to some missing supervisor reviews of the video surveillance.

Standard 4: This standard has a total of five indicators regarding mental health and health services. Four of the five indicators were rated satisfactory. Indicator 4.03 Medication was rated a limited due to the program not having a Registered Nurse (RN), for twelve months now, to oversee the medication process. An exception was noted in 4.01 Healthcare Admission Screening due to the preliminary healthcare screenings not being reviewed by an RN due to the program not having an RN.

Summary of Deficiencies resulting in Limited or Failed Rating (If Applicable):

Standard 4: Indicator 4.03 Medication was rated a limited due to the program not having a Registered Nurse (RN), for twelve months now, to oversee the medication process.
